Art.36. Admission tickets are valid exclusively on the specific date or within the period indicated and may not be modified under any circumstances. Access to the Park is permitted only on the day or

during the period stated on the ticket. Pursuant to Article 59 of Legislative Decree No. 21 of 21 February 2014, the right of withdrawal does not apply to contracts for the provision of accommodation, transport, catering, or leisure services where the contract provides for performance on a specific date or within a specified period. The ticket is a legally recognised proof of access and, as such, includes VAT.

Art.37. The admission ticket entitles patrons to use all water and non-water attractions within the Park at no additional cost, subject to any specific restrictions that may apply under the individual attraction regulations. This does not include the rental of lockers, hairdryers, and hot showers, which are subject to separate charges.

Art.38. The admission ticket must be retained for the entire duration of the stay within the Park and must be presented upon request by Park personnel. Anyone found without a valid admission ticket will be required to leave the Park or regularise their position by purchasing a full-price ticket.

Art.41. Admission tickets are divided into two categories:

⌘ **Standard Ticket (Lawn Area):**

This ticket grants access to the park but does not include the use of sunbeds and does not guarantee the availability of umbrellas. Umbrellas are provided free of charge, subject to availability. Only umbrellas without sunbeds are available under this option, and one umbrella may be used for every five patrons.

⌘ **Relax Ticket and Gold Ticket:**

These tickets grant access to the park as well as the use of sunbeds and umbrellas in designated areas. Holders of these tickets may only use the numbered station assigned on their ticket. Each station may include: 1 umbrella and 2 sunbeds, or 1 umbrella and 3 sunbeds, with a maximum of 5 people per area. When purchasing Relax or Gold tickets—whether online or at the ticket office—it is the customer's responsibility to select the most suitable station using the courtesy monitor or the map available online. Once purchased, the selected

areas cannot be changed. If the chosen station is not satisfactory, a new ticket must be purchased to access a different station. Alternatively, patrons may move to the Lawn Area (without sunbed), but no refund—full or partial—will be granted. If a Standard Ticket has already been purchased, it is possible to purchase an upgrade allowing access to numbered umbrellas and sunbeds. This upgrade can be purchased by contacting the dedicated staff in each area or at the Park's ticket office, at the price indicated under the "UPGRADE" section of the price list.

⌘ The Platinum Area is an additional service, and to use it, you must purchase it separately from your admission ticket: access to the park is permitted only to those in possession of a valid admission ticket.

Access to the Platinum reserved area is permitted only to guests wearing a Platinum identification bracelet, which, together with the admission ticket, is required for entry to this reserved area. Each Platinum area can accommodate up to 5 people.

The identification bracelet is issued exclusively to authorized individuals and is personal; any misuse and/or transfer to third parties will result in a ban from the reserved area and dedicated services.

The Platinum Station includes access to 2 reserved inflatable rafts for use on attractions that require one.

Holders of the Platinum wristband do not need to wait in line to pick up a raft for attractions that require one: they may proceed directly to the starting point with the raft provided to them,

provided they respect the queue at the starting point and follow the instructions of the staff.

The rafts may not be used by anyone who does not have a Platinum Bracelet. The inflatable rafts provided at Platinum stations must remain at the station when not being used for raft-based attractions; they may not be used in other attractions or in the pools, under penalty of being confiscated by staff without any right to a refund. Staff are authorized to conduct inspections and prohibit the use of the provided inflatable rafts in the event of a violation of the rules governing their use.

Art.42. Sunbed and umbrella stations may not be moved. In cases where a station includes a third sunbed, it must remain in the exact position in which it was placed by Park personnel. Staff members may, if necessary, request a change in the positioning of the furnishings for safety or organisational reasons.

Art.43. It is strictly forbidden to occupy sunbed and umbrella stations without having purchased the corresponding access ticket, or to occupy more stations—or different ones—than those indicated on the valid, date-stamped ticket in one's possession.

The Management reserves the right to remove any items placed on a station (sunbed and umbrella) without the appropriate access ticket. Patrons may recover their removed belongings by making a request to Park personnel.

Art.44. Persons over the age of 75 are entitled to a discount on the price of the "Lawn Area" (Prato) ticket.

Art.45. Persons with a certified 100% disability are entitled to a discount on the price of the "Lawn Area" (Prato) ticket.

Art.47. Children under the age of 12 (if verified) and measuring less than 1.50 meters in height are entitled to a reduced-price "Lawn Area" (Prato) admission ticket

Art.48. Umbrellas placed on the lawns, without sunbeds or other furnishings, are available free of charge while supplies last.
